LPL - PRODUCTION TEST COLLECTION CENTRE
SECTOR - 18, BLOCK-E ROHINI
DELHI 110085

Name	: DUMMY			Collected	: 4/6/2021 11:18:00AM
Lab No.	: DUMMYZ003	Age: 25 Years	Gender: Male	Received	: 4/6/2021 11:23:07AM
				Reported	: 5/6/2021 5:44:43PM
A/c Status	: P	Ref By : DR. DUMMY DUMMY		Report Status	: Final

Test Name	Results	Units	Bio. Ref. Interval
CARDIAC / MYOCARDIAL INFARCTION PANEL, SERUM (ECLIA, CMIA)			
CK-MB, mass	**11.00**	ng/mL	<6.22
TROPONIN T, High sensitive	11.00	pg/mL	<14.00
Troponin - I, High sensitive	11.000	pg/mL	<26.20

Note

1. Serial sampling to detect the temporal rise and fall of cTn levels is recommended for the differentiation of acute cardiac events from chronic cardiac disease
2. Any condition resulting in myocardial injury can potentially increase cTn levels thus the results should be used in conjunction with other information such as ECG, clinical observations & symptoms, etc. to diagnose MI
3. A single cTn result may not be sufficient to evaluate MI. Serial blood draws are recommended for evaluation of Acute Coronary Syndrome (ACS)
4. False positive results can be seen in the presence of Rheumatoid factor and heterophile antibodies

Comments

Acute Myocardial Infarction (AMI) requires rapid and accurate diagnosis specially now that new treatment options with thrombolytic agents are available. The laboratory tests help to make this diagnosis at an early stage. Troponin I is a specific cardiac marker elevated only in patients suffering from AMI. Troponin T rises 2-4 hours after the onset of myocardial necrosis and remains elevated upto 14 days. It may also be used to monitor patients with non-ischemic causes of cardiac injury. High levels are also seen in unstable angina. Measurement of both troponins has a sensitivity & specificity of nearly 90% and persistent elevation 12 hours after the onset of chest pain has 100% sensitivity in diagnosing AMI. CK-MB fraction is predominantly found in cardiac muscle and serial measurements during AMI at 3-4 hour intervals over 12-16 hour period is a useful test.
